WILL SILK

DIGITAL MARKETING & GROWTH SPECIALIST

I run the marketing for a live agency and its paying client, every day: brand, website, content, search, email and the CRM behind it.

PROFILE

I'm a hands-on digital marketing generalist, not a theorist. As co-founder of **Velocity Branding Inc**, an AI-integrated agency serving the US and South Africa, I plan, create and publish content across five platforms, run the website and its SEO and AI-search visibility, and use the analytics to decide what we do next. Five years in recruitment taught me to write outreach people answer, and ten years in customer-facing travel roles taught me that everything starts with the audience. I'm Google-certified in digital marketing, with SEO and generative-AI marketing training, and I've hired paid media, SEO and content specialists for US clients, so I know what good looks like from both sides.

RESULTS AT A GLANCE

20K+
short-form video views in 30 days across YouTube, TikTok, Facebook & Instagram

7,083
views on a single YouTube Short, with a 51% engaged-view rate

2.7×
more TikTok views from a content format I spotted in the data and scaled

−72%
homepage weight (4.3 MB → 1.2 MB), lifting site speed and AI-search readiness

EXPERIENCE

Co-Founder · Digital Marketing & Growth
2026 – Present

Velocity Branding Inc · AI-integrated digital marketing agency · Remote · US & South Africa

- **Content & social:** I plan, script and publish short-form video and social content across TikTok, YouTube Shorts, Instagram, Facebook and LinkedIn. I built a 72-post monthly calendar across 5 platforms and scheduled it through Metricool and Zernio.
- **Data-led optimisation:** I pulled platform analytics and found one POV "concept" format beating everything else by 2.7× on TikTok. Engaged-view rate turned out to predict reach, so I rewrote our content rules around retention thresholds.
- **Client delivery:** For our first client, a fine-jewellery retailer in Texas, I moved them from about one post a week to daily Instagram and Facebook posting. Their first Reel reached 1,300 views, 3–5× their static posts, with a 32% skip rate. I spotted the owner's own posts beating polished content 20× and rebuilt the plan around the owner's voice.
- **Website, SEO & AI search (AEO/GEO):** I launched velocitybrandinginc.com (GitHub → Vercel, Notion-powered blog) and set up Google Search Console. I ran a full AI-search audit (technical score 81/100) and shipped nine fixes in a day, including llms.txt, a unified schema graph, hreflang, IndexNow and security headers, lifting our overall AI-visibility score from 50 to 58.
- **Audience & positioning:** I found our YouTube audience skewed male 35–54 while our buyers are women founders of product brands, and refocused content on them. I also packaged our services into a three-tier US pricing ladder with a low-risk entry offer.
- **Email & automation:** I set up HubSpot Marketing Hub (forms, tracking, engagement automation) and a Clay → HubSpot → Gmail lead pipeline. I sent 100+ personalised outreach emails to US and SA small businesses, and fixed deliverability (DMARC) when campaigns were landing in spam.
- **Brand & operations:** I built the agency brand kit and 7 SOPs covering onboarding, paid-ads launch, SEO audits, the content workflow and monthly reporting.

Co-Founder & RPO Recruitment Consultant
Nov 2025 – Present

Bridgeway Talent Partners AI · Remote · UK & International

- I market the business myself (LinkedIn content, a scheduled Metricool campaign, B2B outreach) and write job adverts built to convert, helping deliver an 85–90% offer-acceptance rate.

Senior Talent Manager (Global Talent & RPO)
Mar 2026 – Aug 2026

Advanced Digital Automotive Group (ADAG) · Remote · US Market

- I recruited across digital marketing, technology and operations roles for a US-facing business, and built the KPI reporting leadership used to track hiring.
